## Success case in Brazil

### Tibau City - RN

We successfully replaced the luminaires in the city of Tibau - RN, located in Brazil. The city was in dire need of an illuminated transformation and a unique design. Now, Tibau shines brightly with a distinctive glow.

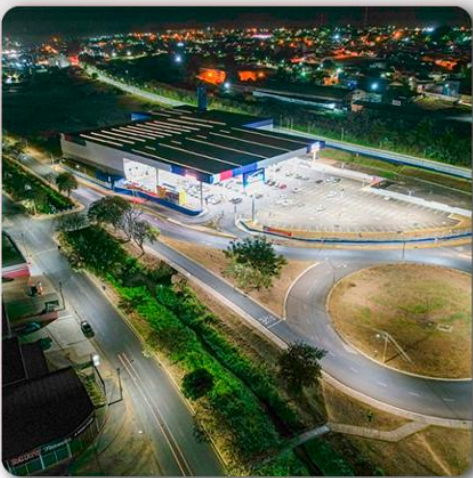

## São Paulo City - SP

INBRAX, in partnership with the State of São Paulo, has illuminated the neighborhood of Jardim Gracinda in Guarulhos city, bringing security and cutting-edge technology to the area.

## Getulina City - SP

Getulina, a charming municipality in the state of São Paulo, now shines even brighter! We at INBRAX have illuminated the entire city, bringing safety to the residents and cutting-edge technology with our public lighting.

## Matão City - SP

We are proud to announce that we have illuminated the city of Matão with our high-quality, high-luminosity luminaires. With this initiative, INBRAX brings more safety and cutting-edge technology to the residents, transforming the streets and avenues into more welcoming and secure spaces.

Matão now shines even brighter, reflecting our commitment to innovation and excellence. Together, we are lighting the way and improving the quality of life in the city.

# Success

**With over 1,700 clients served across Brazil, INBRAX is dedicated to delivering the best in public lighting solutions.**

***We have the ideal solution for your lighting needs.***
